

## DANISH AGRO INDUSTRY | STABLE SOLUTIONS

***Domino A/S is a manufacturer of feeding and drinking equipment for pigs and cattle.***

### COMPANY PROFILE

Domino A/S is turning plastic plates and stainless steel into finished products. The company was founded in 1961 in Glostrup by Vera and Wagner Domino. Since 1971, the company has been located in Ølholm.

The company produces and supplies equipment for pigs and cattle farmers. Domino A/S aims to deliver products of high value both with regard to function, quality and design.

In 2001, Vera and Wagner handed over the control of the company to Allan Trøjborg who became CEO, while Judith Domino took over as financial director.

### PRODUCTS

In close cooperation with customers and suppliers, Domino A/S has developed a wide range of equipment of the highest quality: The main products are feeders, drinking bowls, troughs, sorting scales, cowshed and piggery cleaners among other equipment for pig and cattle farmers.

Domino A/S has developed feeders for nearly every purpose and for different markets with a focus on durability and stability.

In 2006, the Domino Pig Sorting system was introduced: A new concept for porkers in large pens. The automatic sorting systems are some of the most advanced within the line and they have been tested in many pig farms all over Europe.

The product range consists of:

- Feeders
- Manure Removal
- Sorting Systems
- Piglet Feeders
- Straw
- Organic Farming
