

DANISH AGRO INDUSTRY | STABLE SOLUTIONS

Ikadan System A/S is an innovative supplier of equipment systems in plastic material for pig housing.

COMPANY PROFILE

Ikadan System A/S is a supplier of plastic slats and modular flooring systems and has been developing plastic swine production equipment for the past 35 years.

Ikadan System A/S is a part of the Ikadan Group that also consists of Ikadan Plast A/S, Ikadan System USA Inc., and Ikadan Ukraine LLC. Ikadan Plast A/S is a manufacturer of injection moulded plastic products.

The company emphasize the importance of innovation and product development which is developed through on-going interaction with customers.

PRODUCTS

The production is based in Denmark where Ikadan System A/S has a fully automatic production plant. The automatic plant makes it possible to adjust the products to the customer's needs at a competitive price.

The company offers a modular flooring system called Ikadan Ultraflex Flooring System, which is sold in more than 40 countries world-wide.

Ikadan Multiflex is a modular panel system for farrowing, nursery, and finisher pig housing. The panels are available in 35 mm as well as 50 mm.

Unic-X is the Ikadan dry feeder for weaners and finishers. It's developed with focus on natural and easy operation for pigs, user-friendly for staff, minimal feed wastage and easy cleaning.

The product range consists of:

- Ultraflex flooring
- Multiflex panels
- Dry Feeder
- Heating System
- Fastening equipment
- Activity materials
