

DANISH AGRO INDUSTRY | STABLE SOLUTIONS

Jydeland A/S is a machine factory that manufactures bedding and cleaning machinery for dairy farming. Best known for the line of BOBMAN machines.

COMPANY PROFILE

Jydeland A/S is a well-renowned family business, which for generations has supplied labor-saving machines for agriculture worldwide. The company is owned by brothers Flemming and Christian Gits Jensen.

Throughout the years, the company has strived to be innovative and to seek the best, most efficient and durable solutions. 30-year-old machines from Jydeland A/S are still being used daily.

The company has dealers in 34 different countries. This makes Jydeland A/S able to meet the wishes of the customers, no matter where in the world they are located.

Jydeland Machine Factory focuses on producing power machines that are efficient and durable for the next 10 years.

PRODUCTS

All products have a start and a development phase. The first prototypes of the latest creation, the BOBMAN, was launched in 1999. Since then, The BOBMAN has been developed and is sold all over the world to satisfied customers.

The machines are functional and easy to use, while improving the welfare of animals and saving time. With a BOBMAN power machine the cell count can be reduced and the milk quality improved.

The product range consists of:

- BOBMAN PRO
- BOBMAN PRO MAX
- BOBMAN S
- BOBMAN FL
- BOBMAN SL
- BOBMAN FEEDER
