

## DANISH AGRO INDUSTRY | STABLE SOLUTIONS

*Orla Hansen A/S is a supplier of stable equipment to Danish and European industrial companies.*

### COMPANY PROFILE

Orla Hansen A/S was founded in 1986 by blacksmith Orla Hansen. In 2006, the company merged with VJ Staldinventar to become stronger on the agro market. Since 2012, the CEO has been Kenneth Hansen, son of the original founder. The company is located in Tarm with a production site of 11.000 square meters and a warehouse of 4.200 square meters.

**orla hansen**

Orla Hansen A/S is a major supplier of stable equipment for the European agro market and also sub-supplier to large industrial companies within the agriculture and industrial sector.

The company has 55 dedicated employees and is exporting to countries all over the world. The employees are always up-to-date with new technology and are innovative when developing solutions for customers. The vision is to be a reliable business partner for the farmers.

### PRODUCTS

Orla Hansen A/S is continuously developing the “toolbox” to be able to create solutions for the customers. The company has a research & development unit that manufactures prototypes. The production can be put in motion instantly.

The company manufactures equipment for cattle: Trap grids to fix the animals when feeding, front gates for dividing the animals when feeding, cradles for maximizing the comfort of the animals when resting and calf boxes among other products.

The product range consists of:

- Gates
- Grids
- Calf boxes
- Cradles
- Drinking systems
- Mats
- Feeding trough
