

## DANISH AGRO INDUSTRY | STABLE SOLUTIONS

ACO FUNKI DEVELOPS AND DELIVERS COMPLETE INVENTORY SOLUTIONS FOR PIG FARMERS.

*The focus is on quality and well-designed solutions when ACO FUNKI both manufactures and installs components with the intention of improving the quality and productivity of pig farmers all around the world. “Danish Design – German Quality – Global Experience” are the principles of the company and has enabled ACO FUNKI to establish a well-functioning product line to fulfill the needs of the customers.*

### COMPANY PROFILE

Specialized in production and development of utility and equipment for pig farming, ACO FUNKI works on ensuring a solid and stable foundation for farmers to grow on. Today, the company has offices in countries covering most Europe, as well as Russia and China - partially as a result of a partnership with the worldwide reaching ACO-group. This creates the benefits of being able to buy top-tier inventory for piggeries, all across the world. The company has approximately 150 employees, while the entire ACO-group has reached more than 4400 employees worldwide.

### PRODUCTS

ACO FUNKI offers high-quality products and solutions for pig farming. By ensuring high-quality input in production, both firm and consumers can trust the sturdiness required for improving productivity, when the materials are put to work. ACO FUNKI relies greatly on excellent counseling, giving every customer the opportunity and ability to have bespoke solutions thereby fitting any need that might occur. The products of ACO FUNKI are both bought separately or as part of full-line projects.

The project range consists of:

- Penning equipment
- Dry- and liquid feeding systems
- Troughs
- Floor solutions
- Ventilation
- Wash robots
